

3-Phase/Motor Rotation Tester

- Identifies three-phase sequence
- Indicates motor rotation
- Checks for open phases
- For use up to 600V
- Meets IEC-1010 (EN61010) safety requirements
- 5-year warranty
Includes carrying case

| Description | Cat. No. |
|-------------------------------|----------|
| 3-Phase/Motor Rotation Tester | 61-521 |

Phase Rotation Tester

- For use up to 600V
- Broad operating range
- Color-coded insulators over alligator clips
- Shock resistant housing
- No exposed metal parts
- Easy to read
Includes carrying case

| Description | Cat. No. |
|-----------------------|----------|
| Phase Rotation Tester | 61-520 |

Infrared Thermometer

- 15:1 angle of viewability
- Built-in laser pointer
- Backlit display
- Sleep mode
- Measures temperatures from 0°F to 500°F (-18°C to 260°C)
- 5-year warranty
Includes carrying case

| Description | Cat. No. |
|----------------------|----------|
| Infrared Thermometer | 61-682 |

| Specifications | 61-682 |
|---|----------|
| Range & Resolution | Accuracy |
| 0° F to 500° F (-18° C to 260° C) 1° F (1° C) | 3.0% |

Light Meters

- Wide lighting range
- Remote light sensor
- Cosine and color corrected
- Compact and lightweight
- Low battery indicator
Includes carrying case

| Description | Cat. No. |
|---|----------|
| Stick Digital Light Meter w/peak hold, digital and analog output, foot candle and lux measurement | 61-681 |
